

PRESS RELEASE

the w chair

like a brush stroke this chair is fluent and seamless, comfortable to sit on and designed with a love for detail.

as you sit on it you will feel that it is quite rigid in the bottom part but has a good amount of flex in the backrest allowing the round curves to smoothen your body as you lean back. constructed from either moulded reinforced plastic, or a variety of laminated wood finishes.

this chair is currently still in development.on.
